(*e*) In how many years after its construction did the tank discharge ? During the years that the tank discharged, what was the depth of water in the tank, after the close of the cultivation season ? What is the depth of water in the tank, this year after the close of season?

SECRETARY TO GOVERNMENT, PUBLIC WORKS DEPARTMENT.—

A.—(*a*) Rs. 3,63,164.

(*b*) Information has been called for and will be furnished to the member on receipt.

(*c*) Area under irrigation at present is 1,548 acres.

A further extent of 582 acres within $6\frac{1}{2}$ miles of the left and $5\frac{1}{4}$ miles of the right channel can be brought under wet cultivation. The average area which can effectively be irrigated is only 1,700 acres with the present practice. If scientific regulation of water is introduced, wasteful use in the upper reaches avoided, and supplies given by turns, it may be possible to irrigate about 2,000 acres in all.

(*d*) Water is reported to run for the full length, $6\frac{1}{2}$ miles of the left channel, but only for $5\frac{1}{4}$ miles of the right.

Owing to the default of the landowners higher up the channel in not clearing the silt in the channel in proper time, there is insufficient supply at the tail end portion.

(*e*) The tank discharged in 1910, four years after its completion and depth of water after the close of the irrigation season, *i.e.*, in May 1911 was 16·63 feet.

The depth of water in the tank after the close of the last cultivation season, this year was 3·5 feet.

The information as to the other years of discharge and depth at the close of the respective irrigation seasons, has been called for and will be furnished to the member on receipt.

(*f*) The amount recovered up-to-date is Rs. 21,716-7-6. Villagewar Statement has been called for. The amounts yet to be recovered Villagewar are noted below:—

	Rs.	a.	p.
(1) Madhya Venkatapura	2,454	13	0

10)	Longapur	19	0	0
(11)	Mattur	383	0	0
	Total ..	5,301	9	0

The amount of Rs. 21,716-7-6 has been fully credited into the Treasury but as the dates of credit extend over a series of years commencing from the year 1901, information as to these dates is not readily available.

The original contribution accounts having been mislaid by Shanbog Mallayya of Doddasaggere, he was dismissed from service and a fresh account was got prepared by his brother Kempanna and it is in the Koratagere Sub-Taluk Office.

(*g*) Amounts due on account of water rate and wet assessment are fully recovered and credited and what is misappropriated pertains solely to contribution. Shanbhogs Mallayya and Kempanna of Doddasaggere and Madhya Venkatapura respectively are the village officers who have misappropriated a part of the contribution. Information as to the amount misappropriated by Mallayya is called for and will be furnished. He was convicted and sentenced to six months rigorous imprisonment by the First Class Magistrate of Maddagiri. On appeal to the Chief Court, he was acquitted, but action was taken departmentally and he was dismissed from service.
